PART 1 - INFORMATION ABOUT THE CPO

1. CPO INFORMATION

a. CPO's Name: _____ 0205

b. CPO's NFA ID# _____ 0210

c. CPO's Legal Entity Identifier (LEI) _____ 0009

The term "Legal Entity Identifier" or LEI refers to the identification number required by the Commission Regulation 45.6 in all recordkeeping and swap data reporting, and which is issued by an LEI utility pursuant to that regulation. See 17 CFR 45.6.

d. Person to contact concerning this Form CPO-PQR _____ 0215

e. Title for person identified in d. above _____ 0111

f. Telephone number and email for person identified in d. above _____ 0240

g. CPO's chief compliance officer _____ 0220

h. Total number of employees of the CPO _____ 0225

i. Total number of equity holders of the CPO _____ 0230

j. Total number of Pools operated by the CPO _____ 0235

2. CPO ASSETS UNDER MANAGEMENT

a. CPO's Total Assets Under Management _____ 0250

This figure should reflect the total assets under management of all commodity pools operated by the CPO as of the reporting date. This balance should include all commodity pools operated by the CPO for which the CPO is required to be registered. When reporting this balance, you should only report actual pool assets and should not include the notional value of any pools that have been allocated to sub-advisors for trading.

b. CPO's Total Net Assets Under Management _____ 0255

This figure should reflect the total net assets under management of all commodity pools operated by the CPO as of the reporting date. This balance should include all commodity pools operated by the CPO for which the CPO is required to be registered. When reporting this balance, you should only report actual pool assets and should not include the notional value of any pools that have been allocated to sub-advisors for trading.

Supplemental information relating to any funds under management allocated to futures and swaps:

Enter total net assets under management of all commodity pools operated by the CPO as of the reporting date. _____ 0030

For purpose of this balance you should include all commodity pools operated by the CPO including those commodity pools that the CPO operates pursuant to an exemption or exclusion pursuant to 4.13 or 4.5. When reporting this balance, you should only report actual pool assets and should not include the notional value of any pools that have been allocated to sub-advisors for trading.

Provide a breakdown (by approximate percentage) of the Total Net Assets Under Management (Total Net AUM) for all commodity pools operated by the CPO reported in Box0030 above that were allocated to the following investment categories as of the reporting date.

- When reporting the approximate percentage in each of the categories, provide a reasonable good faith estimate based upon the data that is available to you.
- If you are also registered as a CTA, you should exclude from Total Net AUM, any assets attributed to separately managed or parallel managed accounts for which you report on the CTA Form PR.
- Where collateral/margin is required but has not been posted as of the reporting date, you should include the required collateral/margin in the appropriate investment category
- All percentages should be rounded to the nearest percent and total percentages allocated among these types of investments should add up to 100%. Enter "0" for any investment category for which the CPO has no pool assets allocated as of the reporting date.

Investment Category Approximate Percentage of Total Net AUM

FINANCIAL RATIO REPORTING

Please provide information on your firm's financial operations by reporting two separate financial ratios. In computing these ratios, please note the following:

- The ratios must be calculated using generally accepted accounting principles or another internationally recognized accounting standard, consistently applied.
- The ratios must be calculated using the accrual method of accounting.
- For firms that are dually registered as a CPO and CTA, and file both the PQR and PR, the ratios will be carried over between the forms and can be amended on either filing
- Always use the absolute value of the respective balance. Ratios should not be reported as negative numbers. Further, firms should report a ratio of "0" if the denominator is 0.

a. Holding Company/Subsidiary Reporting

Firms that are part of a holding company/subsidiary structure may elect to report the two ratios at the Parent/Holding Company level or the Subsidiary Member Firm level.

Are you a subsidiary in a holding company structure? _____ **A001**

b. Reporting Period

A firm that has a fiscal year end that does not align with the reporting quarters may report the ratios as of the firm's most recently ended fiscal quarter.

Are the reported ratios for a period with the same end date as the end date of this PQR filing (i.e. PQR reporting date is 6/30/2017, Current Assets/Current Liabilities Ratio as of 6/30/2017)?

_____ **A005**

c. Current Assets/Current Liabilities (CA/CL) Ratio

This ratio is based on a firm's current asset and current liability balance at the reporting quarter end.

Current Assets/Current Liabilities (CA/CL) Ratio _____ **A003**

Current Assets: Cash or any asset that can be readily converted to cash within one year. Current assets for a CPO may include, but are not limited to, cash, marketable securities, short-term investments, accounts receivable, and a general partner's investment in its pool.

Current Liabilities: Obligations that are reasonably expected to be paid within one year. Current liabilities include, but are not limited to, accounts payable, accrued expenses, payroll liabilities, income tax liabilities, and interest payable. A firm's long-term financial obligations that are not due within the present accounting year are considered a noncurrent liability and should not be included in this ratio.

d. Total Revenue/Total Expenses (TR/TE) Ratio

This ratio must reflect the total revenue earned and total expenses incurred during the prior 12 months.

Total Revenue/Total Expenses (TR/TE) Ratio _____ **A004**

Total Revenue: Gross income earned by a firm from its normal business activities before any expenses have been deducted. Income may be received as cash or a cash equivalent and is typically generated by a CPO through management and/or incentive fees.

Total Expenses: Costs incurred in a firm's efforts to generate revenue, representing the cost of doing business. Expenses may include, but are not limited to, wages and salaries, rent, utilities, depreciation, and bad debts.

8. POOL'S STATEMENT OF CHANGES CONCERNING ASSETS UNDER MANAGEMENT

Balances must be reported in US dollars. If you are converting balances to US dollars, you must use the conversion rate in effect on the reporting date, which is the date of this PQR.

Reporting Period is defined as any of the individual calendar quarters (ending March 31, June 30, September 30, and December 31) for all CPOs.

All financial information shall be reported in accordance with US generally accepted accounting principles, consistently applied. However, a CPO that operates a pool that meets the conditions specified in 4.22(d)(2)(i) and who has filed notice pursuant to 4.22(d)(2)(iii) may use the alternative accounting principles, standards or practices identified in the notice when completing NFA Form PQR.

Provide the following information concerning the Pool's activity during the Reporting Period. For the purposes of this question:

- a. The Net Asset Value at the beginning of the Reporting Period are considered to be the same as the Net Asset Value at the end of the previous Reporting Period, in accordance with Commission Rule 4.25(a)(7)(A).
- b. The additions to the Pool include all additions whether voluntary or involuntary in accordance with Commission Rule 4.25(a)(7)(B).
- c. The withdrawals and redemptions from the Pool include all withdrawals or redemptions whether voluntary or not, in accordance with Commission Rule 4.25(a)(7)(C).
- d. The Pool's Net Asset Value on the Reporting Date must be calculated by adding or subtracting from the Net Asset Value at the beginning of the Reporting Period, respectively, any additions, withdrawals, redemptions and net performance, as provided in Commission Rule 4.25(a)(7)(E).

i. Pool's Net Asset Value at the beginning of the Reporting Period:	0370
ii. Pool's net income during the Reporting Period:	0380
iii. Additions to the Pool during the Reporting Period:	0390
iv. Withdrawals and Redemptions from the Pool during the Reporting Period:	0400

Withdrawals should be entered as positive values.

v. Pool's Net Asset Value on the Reporting Date:	0420
vi. Pool's base currency	0431

9. POOL'S MONTHLY RATES OF RETURN

Provide the distinct monthly and annual rates of return for the pool as a whole or, if applicable, for each series or class within the pool. The level at which you report (pool as a whole or class/series) should be consistent with how information is presented to participants. To enter performance information, click the Edit button. To add a layer or class, click the Add Layer button, before you click Edit. You will be asked to provide a name for the layer, which should be consistent with the identifier used to report to participants.

Returns should be calculated in accordance with CFTC Regulation 4.25(a)(7)(F). If no trading took place during a given month, enter "NT" in the applicable box. If you previously filed a disclosure document for the pool and reported performance data, this information will be auto populated in the table. You may edit or amend the information in the table by typing in the applicable boxes. All changes will carry over to future PQR and disclosure document filings.

10. POOL SUBSCRIPTIONS AND REDEMPTIONS

Provide the following information concerning subscriptions to and redemptions from the Pool during the Reporting Period

a. Has the Pool imposed a halt or any other material limitation on redemptions during the Reporting Period?

3805

A halt on redemptions should not be confused with a pool's lock-up period, which is a pre-determined and disclosed period of time after making a deposit that funds cannot be withdrawn.

If "Yes," provide the following information:

i. On what date was the halt or material limitation imposed?

3815

ii. If the halt or material limitation has been lifted, on what date was it lifted?

3820

iii. What disclosure was provided to participants to notify them that the halt or material limitation was being imposed? What disclosure was provided to participants to notify them that the halt or material limitation was being lifted?

11. POOL SCHEDULE OF INVESTMENTS

First, determine how the Pool's investments should be allocated among each of these seven categories. Once you have determined how the Pool's investments should be allocated, enter the dollar value of the Pool's total investment in each applicable category on the top, boldfaced line. For example, under the "Cash" heading, the Pool's total investment should be listed on the line reading "Total Cash." After the top, boldfaced line is completed, proceed to the subcategories. For each subcategory, determine whether the Pool has investments that equal or exceed 5% of the Pool's Net Asset Value. If so, provide the dollar value of each such investment in the appropriate subcategory. If the dollar value of any investment in a subcategory equals or exceeds 5% of the Pool's Net Asset Value, you must itemize the investments in that subcategory.

Provide the Pool's investments in each of the subcategories listed under the following seven headings: (1) Cash; (2) Equities; (3) Alternative Investments; (4) Fixed Income; (5) Derivatives; (6) Options; and (7) Funds.

CASH

Total Cash 6186

This balance should include cash held at brokers for margin and cash held at banks.

At Carrying Broker 6187

At Bank 6188

EQUITIES

Long

Short

If the fund had any investment in equities, the total long investment in equities should be entered in Box 6189 and the total short investment in equities should be entered in Box 6190. In addition, if 5% or greater of the fund's NAV was invested in any of the sub-categories listed below, the total long and total short investment in each applicable sub-category should be entered in the corresponding boxes. Finally, if 5% or greater of the fund's NAV was represented by individual investments, the details of the investments must be entered by clicking on the itemized button for each applicable sub-category.

Note: Long equities and short equities must be evaluated separately when determining if the 5% threshold has been exceeded. For example, consider a fund with an NAV of \$1,000,000 and long equities valued at \$550,000 and short equities valued at \$500,000 in the same sub-category. The CPO would be required to enter balances for both the long equities and the short equities in the sub-category because both exceed the 5% threshold. Moreover, the CPO is required to enter both the long equities and short equities balances even if the net total does not exceed the 5% threshold, as is the case in this example.

ALTERNATIVE INVESTMENTS

Long

Short

If the fund had any investment in alternative investments, the total long investment in alternative investments should be entered in Box 6223 and the total short investment in alternative investments should be entered in Box 6224. In addition, if 5% or greater of the fund's NAV was invested in any of the sub-categories listed below, the total long and total short investment in each applicable sub-category should be entered in the corresponding boxes. Finally, if 5% or greater of the fund's NAV was represented by individual investments, the details of the investments must be entered by clicking on the Itemized button for each applicable sub-category.

Note: Long alternative investments and short alternative investments must be evaluated separately when determining if the 5% threshold has been exceeded. For example, consider a fund with an NAV of \$1,000,000 and long alternative investments of \$550,000 and short alternative investments of \$500,000 in the same sub-category. The CPO would be required to enter balances for both the long alternative investments and the short alternative investments in the sub-category because both exceed the 5% threshold. Moreover, the CPO is required to enter both the long alternative investments and short alternative investments even if the net total does not exceed the 5% threshold, as is the case in this example.

If the fund had any investment in derivatives, the total positive open trade equity in derivatives should be entered in Box 6437 and the total negative open trade equity in derivatives should be entered in Box 6438. You do not need to enter "+" or "-" in front of your OTE balances. In addition, if 5% or greater of the fund's NAV was invested in any of the sub-categories listed below, the total positive open trade equity and total negative open trade equity in each applicable sub-category should be entered in the corresponding boxes. Finally, if 5% or greater of the fund's NAV was represented by individual investments, the details of the investments must be entered by clicking on the Itemized button for each applicable sub-category.

Note: Derivatives with positive open trade equity and derivatives with negative open trade equity must be evaluated separately when determining if the 5% threshold has been exceeded. For example, consider a fund with an NAV of \$1,000,000 and derivatives with a positive open trade equity of \$550,000 and derivatives with a negative open trade equity of \$500,000 in the same sub-category. The CPO would be required to complete both the Positive OTE and Negative OTE columns for the sub-category because both exceed the 5% threshold. Moreover, the CPO is required to enter both the Positive OTE and Negative OTE columns even if the net total does not exceed the 5% threshold, as is the case in this example.
